(Hi again Jeffrey. When y’gotta go...
Best,Frank)

Trading Off

A bargain with Evil for safe
passage,thus marching
from Iraq with heads up,

tail between legs. Such
simultaneity not alien. Many
proceedings require saving face
to a fair degree. Mark times

you’ve orchestrated scores for dis-
cords. And when you’ve been,like,

yourself piped up. Best hack we got
with each other. Religionists as sin-

ners all;secular Lifers,fuck-
ups on The Bridge to Nowhere.

Frank composes in Florida,which retains
a lot of swamp,and politics.
